SIS Swiss International School is a bilingual education pioneer. We are fully committed to consistent and genuine bilingual classroom instruction in English and German from kindergarten to primary school and through to secondary and college level.

A Bilingual Immersive Approach
English and German play equal roles in school communication at SIS – in the classroom and in all parts of day-to-day school life. Children learn English and German through immersion. This immersion method of language learning and instruction by native speakers exposes students to the rational, emotional and cultural dimensions of the second language. As a result, children learn to express themselves naturally and confidently in both languages. Bilingualism is not a prerequisite for joining SIS at any level.

Pioneering Bilingual Education
SIS schools are part of the SIS Group, a pioneer in the bilingual education arena since 1999, which consistently ensures high-quality standards. By catering to all education levels from kindergarten to college level (sometimes even under the same roof), SIS facilitates a seamless transition from one educational stage to the next in a familiar environment.

A range of events and activities, such as the SIS Cup (SIS’ International Sports Day), bring children from various countries, classes and ages together, creating a genuine sense of community, where students of all ages have the opportunity to learn from one another.

SIS Pfäffikon-Schwyz: A Home Away from Home
At SIS Pfäffikon-Schwyz children and adolescents from preschool to secondary school live and learn together in German and English in a modern, well-equipped school building. The secondary school prepares the students for a bright future, with the possibility of transferring to SIS Zürich or SIS Basel’s Bilingual College, or joining the local system for the Swiss Matura or a demanding apprenticeship.

*Besides the high academic performance at SIS Pfäffikon-Schwyz, the children and staff love coming to school. We have a strong and positive team, school and community spirit. The older children learn and develop the responsibility of being role-models to younger children while the younger children can be inspired by the achievements and overall positive attitude of the older children,* explains Christian Rütti, Principal at SIS Pfäffikon-Schwyz.

Join SIS’ diverse school community and learn more about the benefits of continuous, bilingual education.

Marcel Stähli is the CEO of SIS Swiss International Schools Schweiz AG. SIS operates 17 bilingual, private day schools in Switzerland, Germany and Brazil with more than 3,700 students attending classes from kindergarten through to college.
